## Note to Readers

This is the second published cumulative index of *NSA Technical Journal* articles. This index aims at readability and ease of use. It is sorted three ways: by title of article, by author, and by keywords. Its purpose is twofold: to give readers a general view of the scope of subjects that appeared in the *NSA Technical Journal* and to provide readers with a means to locate articles they may wish to use as general information on the job or as research tools for operational projects.

We hope you find the index useful and that you will contact the publications staff of the Center for Cryptologic History if you would like copies of an article. You may reach the publications staff at 972-2895s or 688-2338b. If you send a written request for an article, address it to Center for Cryptologic History, E322, SAB 2, Door 22.
